

THE AI BUILDER PROGRAM

EMPOWERING YOUNG ADULTS TO REVOLUTIONIZE LOCAL BUSINESSES

Designed for self motivated problem solvers, the AI Builder Program teaches you to leverage powerful AI agents to automate and scale local service businesses like HVAC, roofing, and landscaping. The courses are free. Your **\$7,500 one time fee** is simply a small hurdle to see if you are serious. The real value is in our world class coaching, connections to potential acquirers like ServiceTitan, and equity partnerships.

THE CAREER PATH

- **Start:** 1 client (ideally a parent's business)
- **Grow:** Scale to 5 or 6 clients and build an agency
- **Scale:** Convert to a highly valued SaaS model
- **Exit:** Acquisition (via our connections)

WHO WE WANT (AND DON'T)

WE WANT: Self motivated problem solvers willing to document progress via weekly "metrics analysis action" reports.

WE DON'T: Hobbyists, poor communicators, or anyone seeking a "work 2 hours a day" lifestyle. We are direct: we would rather turn you away than waste time.

MEET YOUR INSTRUCTORS

DENNIS YU

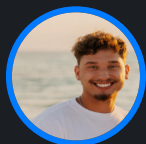

Veteran digital marketer and engineer guiding builders through strategic scale up, equity partnerships, and finding potential buyers.

DYLAN HAUGEN

AI execution expert who proves that the younger generation has a massive unfair advantage when it comes to deploying AI agents.

PROVEN SUCCESS

ETHAN MURPHY

Starting with his dad's landscaping and Christmas lights business in Louisville, KY, Ethan scaled quickly. Within 6 months, he secured 7 paying clients.

GEORGE PALADICHUK

George scaled his agency to 70 clients paying \$1,000 per month. Guided by the program, he successfully transitioned into a SaaS software company.

MARKO SIPILA

Marko built 3 companies alongside us. After an exit from his first, he founded CoatingLaunch and his current AI SaaS company is valued between \$10M and \$12M.

READY TO PROVE YOU ARE SERIOUS?

Record a simple 1 minute video about anything. This tests your communication ability and follow through, not your public speaking skills. Send it to:
